

WiCyS Utah Affiliate Newsletter

April 2021

Together
WE THRIVE.

BOARD MESSAGE

WELCOME TO WICYS -UTA'S INAGURAL ISSUE

Welcome to the first issue of the WiCyS Utah monthly newsletter! We are so happy you are here. We started the WiCys Utah newsletter because we wanted to create an inviting and inspiring space for you to find support and answers to your questions. Our goal is to provide useful information in an easily navigated format. As always, your comments and critiques are welcome and necessary to ensure this newsletter serves the audience in the best way possible. We also encourage you to share this newsletter with your colleagues and contacts who may be interested in the information provided

Sections you can expect to see in each issue of the newsletter:

- **Board message:** Monthly update from the affiliate board.
- **Member Spotlight:** Each month we will spotlight a WiCys Utah member.. Please let us know if you would like to participate in the spotlight
- **News Worth Repeating:** Local or applicable news stories
- **Job Opportunities:** Local open cyber security positions
- **On the Horizon:** Upcoming events
- **Contact Us:** Contact information

Regards,

Kristina

MEMBER SPOTLIGHT

Elizabeth Beauchman

Elizabeth Beauchman is the Sr. Director of Identity and Access Management within the Security organization at HealthEquity. She is responsible for the strategy and execution of the Identity and Access Management (IAM) and Privileged Access Management (PAM) Program. She currently devotes a great deal of her attention to the IAM and PAM maturation and implementation, streamlining processes, improving authentication and authorization, creating IAM awareness through the support of executive leadership and team members, and championing change via an IAM aware culture within HealthEquity. Elizabeth has spent the bulk of her career in Cyber Security IAM originations, within financial services and is now pairing financial services and healthcare at HealthEquity. She grew an appreciation for IAM while leading large offshore operations organizations. She quickly noted how impactful thoughtful access and identity solutions can simplify and streamline business processes, enhance the user and client experience, and mitigate and reduce risk. Elizabeth has a well-established track record of building strong teams and is always willing to accept new challenges in an effort to strengthen security within an organization.

Elizabeth currently lives in Scottsdale, Arizona. She graduated with a degree in Political Science and then went on to earn a Master of Business Administration. Elizabeth has a passion for learning, travel, sports, volunteering, and spending time with family and friends. In her time away from work you can often find her at a trailhead, running, or doing something active outside. In addition, she loves to volunteer and work with young girls and women in an effort to make a meaningful impact and foster empowerment for the future.

· **Briefly describe what you do all day.**

I spend most of my day driving the IAM strategy and roadmap, working across the organization to improve processes and depth of IAM and PAM control, addressing organization wide risks and issues, and partnering with internal and external audit.

· **What's the best thing about cyber security, what is the hardest?**

If you ask me what's the best and worst thing about Cyber Security I will tell you - constant change and a challenge. You will never be bored and there will always be a new puzzle to solve or new challenge to take on.

· **Fill in the blank: I once met...**

A family of angry javelinas in my neighborhood and I have never run so fast.

· **What inspires you?**

I am inspired by the opportunities to make positive and meaningful changes, build strong teams, and helping others grow personally and professionally

· **What are five words (or less) of advice for others in your profession?**

Continually ask how and why

NEWS WORTH REPEATING

Facebook's Return to Work Program

Facebook is launching its Return to Work program for the fourth year, and they are looking for people who have had a career break of 2 or more years to join the Spring group of Returners! This supportive environment is the perfect place for those with a career break to re-emerge in their professional careers.

To learn more, we recommend reading this article (<https://lnkd.in/gzTU8Vf>), which details the stories of three Returners as they successfully transitioned into roles at Facebook after graduation. For those ready to apply, we encourage reviewing our careers site (<https://lnkd.in/gErVR4G>) regularly, as roles are

updated frequently throughout the year.
