

WiCyS Utah Affiliate Newsletter

June 2021

Together
WE THRIVE.

WELCOME TO WICYS -UTAH'S JUNE ISSUE

Welcome to July! Although Utah is enduring unprecedented heat and drought, we still have much to celebrate. Summer is here and we are again beginning to enjoy travel and in person conferences and other learning opportunities. The national WiCys conference is being held live in Denver this September! We hope to see you there.

We are also thrilled to announce our own Sherrie Cowley has been named a finalist for the Women Tech Award. We already knew what an incredibly strong woman she was and we are happy the Women's Tech Council agrees.

We would love to hear how you and your companies are returning to pre-covid work and travel environments

Please click [here](#) and share your thoughts in our LinkedIn group.

Regards,

The WiCyS Utah Board

Shalini Kesar, Kristina Belnap, Sherrie Cowley, Mark Milne and Jami Hughes

MEMBER SPOTLIGHT

Sherrie Cowley

Sherrie Cowley is serving as the Social Media and Marketing Chair of the WiCyS Utah Affiliate. She brings with her a strong background in IT Management, including Cybersecurity, reaching almost 20 years. She started programming at a young age, worked as a software engineer, engineering manager, identity and access manager, information security manager, and director of security operations and compliance. Sherrie has created multiple start-up companies, developed security programs from the ground up, and managed security for fortune 100 companies. Her current professional role is Director of Security Operations for Health Information Systems at 3M. Through this array of experience, Sherrie has determined that she is most passionate about developing an amazing security staff and security programs. When not at work, Sherrie can be found playing soccer, hiking, lock picking, and solving cryptography challenges.

What is your background/how did you come to a career in Cybersecurity?

I started programming at a young age, worked as a software engineer, engineering manager, identity and access manager, information security manager, and director of security operations and compliance. I have created multiple start-up companies, developed security programs from the ground up, and managed security for fortune 100 companies.

What aspect of your job are you most passionate about?

Developing an amazing security staff and security programs

Quick Facts:

Current Role: Director of Security Operations for Health Information Systems

Quote: "When you overcome barriers to accomplish your dreams, you should turn around and look for ways to make that path a little easier for others. I hope WiCyS Utah will open doors so anyone who is interested in a career in Cybersecurity will feel welcome."

NEWS WORTH REPEATING

Let's Get JAMMIN'...

WiCyS is bringing more professional development opportunities with its strategic partner AWS.
